Company Overview

Established in 1996 in Dubai, UAE, ImageGrafix Software FZCO is one of the leading value-added-distributors, developers and service providers of mechanical engineering software addressing integrated Plant Design and CAD/CAM/CAE solutions. ImageGrafix main focus is in oil, gas, petrochemical, power and manufacturing industries throughout the Middle East and North Africa. ImageGrafix Engineering Services Pvt.Ltd.(IGES)in Chennai,India is a subsidiary of ImageGrafix providing customization and technical services (such as detailed engineering and intelligent 3D plant modelling and data management)to EPCs as well as Owner/Operator companies.

Consulting Services

The core competence of ImageGrafix is automating labor-intensive operations. We make sure to carefully select applications which comply to the latest industry standards with integration capabilities, giving customers cost-savings in terms of higher productivity and reduced man-hours. ImageGrafix also provides full support and training on software products.

Custom Development

For Plant Design (2D/3D Piping, P&ID, Visualizations) and CAD/CAM/CAE applications, ImageGrafix

provides custom programmings within Autodesk manufacturing software products using the latest software tools such as ObjectARX®.
