Intergraph® CADWorx® & Analysis Solutions

Article in May *Hydrocarbon Engineering* highlights UNI success using Intergraph® CADWorx® and CAESAR II® on Florida tank facility design

HOUSTON, Texas, August 17, 2010 – The May 2010 edition of *Hydrocarbon Engineering* features an article that discusses the design of a tank facility in Florida by UNI and how Intergraph CADWorx Plant Professional and CAESAR II helped them increase efficiency, improve accuracy, streamline costs, and minimize construction errors, saving the client time and money. UNI cited how CADWorx 3D modeling made client reviews easy, eliminating ambiguities that can occur in 2D. The article highlights other advantages of the programs, such as the automation of isometric drawings, instant and accurate bills of material, the bi-directional link between design and analysis, and the interface with CADWorx P&ID software.

About Intergraph CADWorx & Analysis Solutions

With the January 2010 acquisition of COADE, Inc., Intergraph has extended its offerings with plant design solutions for AutoCAD®-based projects and design groups and for the broader engineering community. The aims of the Intergraph CADWorx and Analysis Solutions group are that design and engineering share relevant information seamlessly, thereby maintaining accuracy and improving efficiency. These products continue to conform to those goals and include: CADWorx Plant Design Suite for intelligent plant design modeling, process schematics and automatic production of plant design deliverables; CAESAR II, the world's most widely used pipe stress analysis software; PV Elite for pressure vessel and heat exchanger design and analysis; and TANK for the design and analysis of oil storage tanks. For information on the acquisition, visit <http://www.intergraph.com/ppm/coade.aspx>.

Intergraph, the Intergraph logo, CADWorx and CAESAR II are registered trademarks, and PV Elite, and TANK are trademarks of Intergraph Corporation. Other brands and product names are trademarks of their respective owners. © 2010 Intergraph Corp. All rights reserved.
