**CAESAR II User Group, Houston TX - February 18th, Houston TX.** Join us at the Houston CAESAR II User Group. [Register for this user group](#).

## COADE REGIONAL TRAINING:

**COADE delivered training** - In January, dealer delivered training will take place in Austin, TX from January 12th to 14th and in Wooster, OH from January 12th to 14th. For more information, visit [COADE delivered training](#).

## PRODUCT HINTS & TIPS:

**PV Elite - Component design and analysis** – PV Elite helps you build not only whole vessels and heat exchanger models but also some component level calculations. An even more comprehensive component capability is available within CodeCalc, which is included in PV Elite. Together, PV Elite and CodeCalc help you analyze and build complete vessels quickly and accurately. [Read about PV Elite](#).
