COADE TANK

Product Update

New Build for TANK 3.10

This is a notification for all COADE, Inc. resellers: email about TANK New Build (below) will be sent to all users this week.

Dear TANK users,

COADE, Inc. would like to thank you for your continued feedback and support and let you know that the new build for TANK Version 3.10 is available. The new TANK *build* can be downloaded from the COADE website: [TANK Downloads](#).

Changes made in this build are listed in the "build.txt", included in the installation.

Please note that this file can only be installed on a previous installation of Version 3.10. This installation file can only be applied to prior versions of TANK. All previous builds and updates are included in the current build.

Best regards,
TANK Development Team
COADE, Inc.
