- 11) ImageGrafix becomes Cloudis' CMPIC Distributor for the Middle East
- 12) Enhancements to Mat3D and Foundation3D Software Products

CAESAR II Build 090904 released

COADE has announced a new Build 090904 for CAESAR II 5.2, which includes the following enhancements:

- Corrected and modified configuration module to address 64-bit operations, RAM settings, user ID settings, FRP data units conversions and "comma" delimiters.
- Corrected "annotation" operation graphics and file-save procedures' graphics.
- Quick Reference Guide and Technical Reference Manual corrections.
- Improved solution speeds.
- Corrections made to the static output processor to address plotting, excel export and the input echo of material data.
- Improved the handling of reducer elements in both ISOGEN and Intergraph interfaces.

Current Versions of COADE Software

Product	Version	Build Number	Build Date
CADWorx	2010	20090904	September 4, 2009
CAESAR II	5.20	090904	September 4, 2009
CodeCalc	2009	090610	June 10, 2009
PV Elite	2009	090610	June 10, 2009
TANK	3.10	090923	September 23, 2009

CADWorx Plant Design 2010 now released

COADE announces the release of CADWorx Plant Design Suite 2010 with key enhancement:

- Support for AutoCAD 2010, AutoCAD 2009, and AutoCAD 2008 in both 32 bit and 64 bit.
- New Pipe Support Modeler, for insertion of user defined intelligent pipe supports.
- Support for I-Configure created ISOGEN projects.
- New shapes: Double Angle, Z shape, Channel & Angle with Lip.
- New export CIS/2 format file (32 bit only)
- New insulation feature in Equipment Module
- New ANSI flanges look-up table for Body Flange component for Equipment

Renew CodeCalc UMS and get PVElite "Free"

COADE announces that the development and support of CodeCalc software will end on December 31st, 2009. CodeCalc will no longer be shipping after December 31, 2009. But there is good news for all CodeCalc current UMS customers: All users will automatically get the free PVElite Upgrade for their Codecalc license(s).

So what's needed as of Dec. 31st, 2009 to be upgraded to PV Elite ? Any of the following:

- Be current on your CodeCalc maintenance
- Renew your CodeCalc maintenance

PIPENET Seminar and Workshop in Qatar and Kuwait

ImageGrafix Software FZCO and Sunrise Systems Limited (U.K) are going to hold a technical presentation and workshop on *PIPENET Vision Software* on Monday, October 26, 2009 at Grand Regency Hotel, Doha, Qatar and on Wednesday, October 28, 2009 at Holiday Inn Hotel, Kuwait.

We suggest you bring your Laptop with you which would enable you to use PIPENET Software, as you follow the presentation.

Above mentioned events are by-invitation-only. If you wish to attend, please contact ImageGrafix for receiving an invitation and the agenda.

Important announcement for all customers using AutoCAD 2007 and based products

We would like to inform you some important changes regarding your software license(s) of AutoCAD 2007 and based products. On 15 March 2010, Autodesk® will no longer support upgrades and cross upgrades from AutoCAD 2007 and based products. Apart from existing maintenance packs that are downloadable from www.autodesk.com, service and support will also be discontinued.

ImageGrafix Software FZCO the "Autodesk Authorized Mechanical Partner" in the UAE proudly announce a special upgrade promotion as follow:

Upgrade or cross upgrade your AutoCAD 2007 and based product to AutoCAD® Mechanical 2010, AutoCAD Electrical 2010 or Autodesk Inventor 2010 and save up to 20% off SRP*

16th July – 15th Oct 2009	16th Oct – 15th Jan 2010
* 20% with Subscription	* 10% with Subscription

*Discount will be on the product and not on the subscription.

Plan your upgrade now to benefit from extremely attractive upgrade discounts and ask about Autodesk® Subscription, which provides the latest technology, online support, eLearning and budget predictability.

For more details and pricing please contact Mr. Shaju Joseph at shaju@image-grafix.com.

Inventor Users can Download Algor DesignCheck for Free

Download free* Algor DesignCheck for AutodeskR InventorR software, a first-pass linear static stress analysis tool that allows you to validate and optimize your Inventor designs before manufacturing.

ImageGrafix becomes Cloudis' CMPIC Distributor for the Middle East

Cloudis Limited is an independent UK-based software company developing database based products (CMPIC) since 1994 and counts among our clients some of the largest engineering companies in the world. CMPIC - (Configuration Managed Project Integrated Cabling) cable management software for controlling the design, routing and installation of all types of cabling. The software can be used in single or multiple project environments and includes optional Configuration Management capabilities. Building on our experience of customers' requirements since our first installation in 1996, CMPIC offers a depth and breadth of functionality which is unrivalled for shipbuilding, power, offshore and other large engineering construction.

ImageGrafix is proud of this relationship and happy to bring the products and services of Cloudis to the Middle East market. For more information on CMPIC/Cloudis software, please visit www.cloudis.com

Enhancements to Mat3D and Foundation3D Software Products

Dimensional Solutions Inc., has announced the following product enhancements to their Mat3D and Foundation3D software packages:

- Support of English, Metric and SI units for Canadian Code CSA A23.3
- Selection of many different pile layout arrangements such as single pile, two piles and many others
- Availability of CRSI pile patterns including staggered and symmetrical pile arrangements from 2 to 30 pile layout
- Choice of user-specified number of rings and piles per ring for circular or ring pile pattern
- Ability to design rectangular pile pattern under octagonal pile caps and circular pile pattern under rectangular pile caps
- Automatic file saving of the last ten versions of files in XML format
